My general blacksmithing at 110 W. 6th St., is the largest and most fully equipped in western Nebraska. I can handle any work coming under the head of general blacksmithing, wagon and carriage work. I have as large a stock of heavy hardware, wagons, carriages and woodstock as is carried by any shop in the state. I have modern machinery, electric power and can undoubtedly serve you quicker and better than those doing it the old way.

I would call your attention especially to disc sharpening. COLD ROLLING IS THE BEST, saves all the material, makes them a little harder and absolutely keeps the shape. Give us a trial and if I can't convince you, you get the job free of cost.

I give great effort and time to horse shoeing. Have a man employed that does nothing else and has given years of study to his special line. Horses will be treated kindly and all the work guaranteed perfect.

Plow work, wagon and carriage work done the best. Come and see me.
